A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 11/16/2006 has been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on November 16, 2006 has been considered by the examiner.

The following is an examiner's statement of reasons for allowance:

Applicants' claimed invention is directed to a process for producing carboxylic acid, which comprises reacting aldehyde-containing oily solution with an aqueous hydrogen peroxide solution in the presence of a catalyst comprising a polymer compound having a sulfonic acid group in a side chain thereof in a heterogeneous solution system.

US patent 5,801,276 to Neumann et al teaches a process for the preparation of hydroxypivalic acid by oxidation of hydroxypivalaldehyde with hydrogen peroxide, in which the oxidizing agent is metered into an aqueous hydroxypivalaldehyde reservoir in the temperature range from 60 to 80°C. such that a concentration of hydrogen peroxide of 4% by weight in the reaction mixture is not exceeded, and the addition of hydrogen peroxide is ended as soon as the hydroxypivalaldehyde concentration in the reaction

mixture falls below 1% by weight. However, the prior art of record neither teaches nor suggests a catalyst comprising a polymer having a sulfonic acid group in a side chain in a heterogeneous system. Nor would it have been obvious to modify the process of the prior art to arrive at the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
